## Application

This unit describes the performance outcomes, skills and knowledge required to provide responsible gambling services, and to assist those customers who have issues with problem gambling.

Responsible gambling services must be provided wherever gambling activities are undertaken. In the hospitality industry, the gambling environment is usually referred to as the gaming area and is provided in a range of venues, such as hotels, motels, clubs, pubs and casinos.

The major forms of gambling are wagering (racing and sport) and gaming (gaming machines, table games, Keno and lotteries). Both forms of gambling are relevant to the hospitality industry.

Hospitality venues may operate Totalisator Agency Board (TAB) outlets for wagering on racing and sport events. They may also cover the full range of gaming activities, including operating gaming machines, table games, Keno and lotteries.

Responsible provision of gambling services is an essential underpinning skill for all hospitality personnel involved in the sale and service of gambling activities in licensed premises, including the licensee, gaming supervisors and gaming managers when involved in operational gambling activities.

The unit applies equally to frontline operational gambling personnel who operate with a limited level of autonomy and under some supervision and guidance from others. They would operate within predefined organisational procedures, and regulatory authority and industry and organisational codes of conduct.

Operational job roles would include gaming attendant, table game attendant, croupier and multi-skilled food and beverage attendant.

The unit also relates to satisfying the requirements for providing responsible gambling services under state and territory legislation. The terms used to describe this vary across state and territory regulatory bodies and can include Responsible Conduct of Gambling (RCG), Responsible Service of Gaming, or Responsible Service of Gambling (RSG).

Those developing training to support this unit must consult the relevant state and territory gaming licensing authority to determine accreditation arrangements for courses, trainers and assessors.

Under differing state and territory legislation this is a required certification unit for certain nominated personnel operating in licensed gambling premises.

The requirement to ensure compliance with organisational policies, legal obligations and codes of practice for gambling venues is not covered by this unit but may be found in SITHGAM014 Manage gaming activities.
